

Designing and managing your horse property

With International guest speaker Alayne Blicke (USA)

Creator & director of the award winning internationally acclaimed 'Horses for clean water' program

Tips on how to:

- Design a chore efficient horse property
- Manage pastures, manure, mud, dust and weeds
- Make your property the 'perfect picture' while protecting natural resources
- Learn about new ideas and see examples of equine facility design including shelters and feeders

All welcome including horse property managers and owners, students and agisters

Bags of horse feed lucky door prizes to be won!
