

INVITATION TO THE LANDCARE EVALUATION SUMMIT

Wednesday 17th March 2010 , 10am – 3pm

Bendigo Jockey Club (Heinz Street, White Hills, Bendigo)

Clear Horizon, with the help of the Landcare team, has spent the last couple of months collecting data and stories for an evaluation of the Victorian Action Plan for Second Generation Landcare (VAPSGL) Program.

The purpose of the evaluation was to discover what has been working well in Landcare over the past four years (so that more of this can be done in future) and what hasn't worked so well (so we can rethink those elements).

It is now time to bring together the project team, participants and members of the Landcare community to analyse the data and the stories that have been collected.

Your presence at the summit is very important to ensuring the findings of the evaluation are based on the values of stakeholders, not solely on what external consultants think.

We invite you to attend the Summit to take part in the process of analysing the data and sharing the stories, and ultimately to contribute to developing the recommendations.

Please RSVP Grant Godden (03 9637 8190 or email grant.godden@dse.vic.gov.au) by 10th March. If you have any queries regarding the workshop, please contact Grant (as above) or Caroline Love from Clear Horizon (0408 585 550 / email caroline@clearhorizon.com.au)

Best regards

DSE Landcare & Community Engagement Unit
